

## Now You Can Sit Back, Watch, and Get to Know ShipCSX

Last year, we launched the *Get to Know ShipCSX* campaign, and promised to keep you informed of the latest ShipCSX information via new communication channels.

Now, we are happy to announce, we have a growing selection of short videos made with you in mind. These videos are designed to quickly tell you what you need to know and provide tips to help you get the most out of ShipCSX.

These videos are now available on the tool landing pages in ShipCSX. You will now see video thumbnails when you access one of the following tools:

- **Shipping Instructions** – *Carload Shipping Templates*
- **Plant Switch** – *How to Add/Delete Cars*
- **Shipment Management Suite** – *Railcar Tracking and Shipment Tracking Map Tutorial*

If you need help accessing or viewing videos, please call the eBusiness Hotline at **1-877-ShipCSX (744-7279), Option 2**. We'll continue to add more videos, so watch for more coming soon.
